GLISS PROJECTS is a services and maintenance company established in 2013 to bridge the gap of products and services provided to the industry and to maintain quality services needed by industries in order to operate efficiently. We saw a need to service our clients by creating an easy reach company that can render services and supply high quality maintenance affordably since our competitors are distant and supply such services costly.

VISION

- ❖ To provide high quality services and create long-term relations with our clients
- ❖ To be a global industry player that offers value for money servicing
- ❖ To innovate and improve our services ensuring sustainable job creation
- ❖ To be the largest service supplier and offer more added services to clients
